Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 11,23,31,34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 11,23,31 and 34 are outside the scope of claim 1 because they list CaO as an optional component while claim 1 requires CaO. A dependent claim must further limit the claim from which it depends.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1-34 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Goto (5,591,682), for reasons of record.

Claims 32-34 were inadvertently left off PTOL-326 and the rejection over Goto in the previous office action. The rejection over DE 1902432 included these claims therefor they were considered. The incorporation of CaO and only the P_2O_5/Al_2O_3 necessitated the rejection under 35USC 102/103 by the removal of the rejection over DE 1902432.

Applicants state the Goto examples have a thermal expansion coefficient of $.2 \times 10^{-7}/^{\circ}C$ which is within the ranges of the claims. It should be noted that the examples

measure the T.E.C. at a temperature range of -60 to 160°C which cannot be directly compared to the T.E.C. in the claims. Examples 3 and 11 have $\text{P}_2\text{O}_5/\text{Al}_2\text{O}_3$ ratios within .27-.33. Applicants have not shown by way of tangible evidence, commensurate in scope with the claims, there are any differences in properties and that the claims reflect these differences.

Furthermore, products of identical composition may not have mutually exclusive properties. In re Spada 15 USPQ2d 1655,1658 (Fed. Circ. 1990).

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
